

# CORE SOLUTIONS

## Appropriate Use Criteria Compliance on the Fast Track

Achieve your AUC implementation in as little as 90 days and avoid penalties and ramifications of non-compliance. The Core Solution for AUC provides a cross-functional team that can help you plan, implement, and operationalize AUC compliance for your organization. Based on many successful projects and implementation methodology, our team delivers MEDITECH-based providers a complete package of services that can put your AUC implementation on the fast track.

### The Core Solution for AUC Compliance

Many organizations lack the bandwidth or all the specialized resources they need to efficiently address AUC implementation requirements. That's why the experts at CereCore® created a CORE SOLUTION that offers a complete package of services that provide a rapid methodology based on successful projects. The Core Solution for AUC Compliance includes services in three key areas:

#### Technical Setup/Services

The technical component of the AUC service is delivered by experts at CereCore who are well versed in health system environments. Provides services for site(s) technical review, server staging for MU3, installation of REST Infrastructure with Interoperability Services, load balancing and proxy configuration, set up testing, and working with 3rd parties and MEDITECH to facilitate related technical tasks.

#### MEDITECH Application Services

The MEDITECH application services component of the AUC service includes procedure mapping, testing, training, and activation as it relates to utilizing the new criteria within the system. Our MEDITECH experts can provide services for all versions, from Magic to Expanse.

#### Operational Advisory Services

This component of the AUC service helps facilities put AUC into action with smart decision making. This includes consulting on the facility design, decisions and processes, and project management as it relates to the AUC requirements to ensure the workflows are aligned with the business processes in place.

## > CORE SOLUTION BENEFITS

### Value-Added Cost Structure

A complete AUC solution is built on a flat-rate comprehensive services plan, which assures cost savings and value.

### Service Components

An AUC solution is comprised of services from a cross-functional team.

- + Technical Setup/Services
- + MEDITECH Application Services
- + Operational Advisory Services
- + Testing, Training Services and Documentation, Report Design

### Rapid Success + Support

Many AUC implementations can be completed in as little as 90 days, giving you a solid foundation for compliance now and new criteria in the future.

*“We simply can’t replicate the expertise and value we have found with CereCore®. No matter what CMS comes up with, they see it coming and know how to deal with it.”*
